ScreenPRO 300

ScreenPRO 300 Computer-to-Screen (CTS) Imaging System features a single Ricoh GEN 4 printhead. The **ScreenPRO 300** is perfect for smaller shops where productivity and cost are key considerations. The system supports screen frame sizes of up to 26″ x 36″ (66 x 91 cm). The **ScreenPRO 300** can easily produce up to 100 screens per shift. Without on-board exposure, the price point is kept to a minimum, allowing customers to use their existing standalone exposure units.

The **ScreenPRO 300** is designed to fit through a 32″ (81 cm) doorway, and comes complete with computer, monitor, and software that gives operators complete control of all print & RIP parameters. The **ScreenPRO 300** shares the high-quality build with the ScreenPRO 600, and includes the same exceptional technical and customer service and support that Advanced Inkjet customers have come to expect!

Adapters are available for all pre-registration systems including ROQ, MHM, and M&R.

- **Electrical Requirements:**
  208/230 V, 1 ph, 5 A, 50/60 Hz, 1.15 kW

- **Ricoh GEN4 Industrial Printhead**

- **Maximum Image Area:**
  21″ X 27″ (53 x 68 cm)

- **Maximum Screen Frame Profile:**
  1.63″ (4.1 cm)

- **Maximum Screen Frame Size:**
  26″ x 36″ (66 x 91 cm)

- **Overall Size:**
  (H x W x D) 50″ x 60″ x 66″ (127 x 152 x 168 cm)

- Up to Per Shift 100

- **Weight:** 900LB (408 kg)
