

## NEW PRODUCT Q & A

### 6410SP/01 Low VOC Pre-Cleaner Waterborne

How is this product best used?

Apply generous amount on the surface with clean cloth and wipe. This floats the contaminants to the surface. Use a second clean cloth to wipe the surface clean.

How is this product mixed?

Ready to use right out of the can – reduce if necessary on the technical data sheet

What is the pot life?

Single component – no pot life

What surfaces can it be applied over?

All surfaces such as, ferrous & non-ferrous metals, plastic, cured and dried surfaces

What is the VOC rating?

Package VOC 2.8

Is the product to be used before or after sanding?

Use for both – before and after

**Caution – never let cleaner dry on the surface**
